Claims 28 and 47 have been amended to even more succinctly define the invention and/or to improve their form. It is respectfully submitted that no new matter has been added. Claims 28 and 42 are the only independent claims pending in the application.

### Section 112 Rejection

### Response to Rejection

Claim 28 has been amended *inter alia* to overcome the grounds of the rejection. In the present invention, a transfer bias, which is provided to transfer the toner patch image onto a transfer medium, is changeable in accordance with a density of a toner patch image to be formed on an image bearing member. For example, the density is changeable if a half-tone image is to be formed. The Examiner's attention is directed to page 16, lines 5 through 22 of the specification for a discussion of this aspect of the invention. It is

respectfully submitted that the amended claims are in full compliance with the statute and that the rejection has been overcome.
